

The Anson

Description

By locating the garage on the lower level, we make it possible to maximize use of a site that slopes to the front. Design details include cedar shingle siding, stone foundation accents and a planter box at the offset entry.

A sidelight and a transom on the entry door help to brighten the main foyer. Two steps up lead to a two-story great room that is embellished with a built-in media center and shelves, an atrium door to a front deck and a two-sided fireplace shared with the den. The kitchen and nook are nearby. The kitchen contains a walk-in pantry and winged island with a cooktop; the nook features a bay-window bump-out with sliding glass doors. The remainder of the main floor includes the den, a half-bath and a formal dining room with a tray ceiling.

The master suite and two family bedrooms with a shared bath reside on the upper level. A loft area connects the bedrooms. Look to the master bath for luxury appointments: a walk-in closet, dual sinks and a separate shower and spa tub.

The large two-car garage is found, of course, on the lower level and contains extra space for a workshop.

Features

- * Bedrooms: 3
- * Baths: 2
- * Half Baths: 1
- * Square Feet: 1978
