Description

Updated Craftsman styling allows unassuming details to brighten this home's exterior. Cedar shingles in the gable peaks, a columned front porch, and open rafter tails all lend their charm. Interior spaces are roomy and lofty, with nine-foot ceilings in all main-level rooms, except the living room, which has a vaulted ceiling. Family gathering spots are to the back: a family room with built-ins and a fireplace, a breakfast nook with sliding glass doors to the rear yard, and an island kitchen. A powder room, juxtaposed between the living and dining rooms adds a touch of convenience. The upper level is host to three bedrooms and two full baths. The master bath is particularly intriguing with a corner spa tub, double sinks and a separate shower. The laundry room is also on the second level and has room for a washer and dryer and laundry sink.
