

The Prescott

Description

No one can doubt the timeless appeal of an American traditional-style plan. With two gabled roofs and a hipped main roof, shuttered windows and stone accents at the foundation, it speaks to a real sense of home. The covered front porch protects and offsets entry with sidelights and transom. Open the entry to a foyer with nine-foot ceiling. Through an arched entry lies the great room, sporting a vaulted ceiling, wall of triple windows, fireplace and built-in media center. The dining area and island kitchen are behind the garage. The kitchen is appointed with a built-in desk and a pantry. The hallway to the main-level master suite holds a laundry area, a half-bath and a linen closet. Opposing windows in the master bedroom provide ample ambient light. Upstairs bedrooms include one with a walk-in closet and one with a built-in desk. The hall bath has a bright skylight.
